

Alaska Baseball

What you need:

- at least 10 players
- one ball

The Game :

This game is a special variation of the well-known game „Brennball“. The group gets divided into two teams. Both of them are arranged somewhere on the court with a distance of 5 meters.

One person of team A throws the ball as far as he can and starts to run around the group as fast as he can. Meanwhile team B has to get the ball back and post themselves in a straight line with their legs straddled. The person in the front has the ball and begins to roll it through the legs. The last person takes the ball, runs to the beginning of the row and shouts “stop”. Every complete round of team A is a point. Per team are 3 to 5 runs recommended.
